REPORT OF FOREST FIRE WARDEN

Your Town Dump

Your town dump has been set up for your personal convenience. It provides a suitable place where you can dispose of the large amounts of dangerous, inflammable waste material and other useless items which accumulate around your household and local stores, brush, etc., cut on your property. The town dump has become a valuable and indispensable asset in modern community life.

The most successful town dumps are supervised—regular days provided for their use and inflammable material consistently burned. The town dump which receives no attention, where waste material is scattered about without supervision of any description, soon becomes a community menace and a liability rather than an asset.

Many people still burn debris around their homes. A large number of such fires get out of control causing unnecessary damage and expense to the burner. Why burn at home? Make use of your town dump and eliminate the hazard of burning. It will be easier for you — personally and financially.

If, however, you do burn on your premises

1. Secure a permit from your local forest fire warden — the law resuires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty

Use your dump freely *Help Keep it safe*

After a very difficult year, 1955-1956, we have had an excellent start this year. Mrs. Wright who had finished out the year was forced to resign this summer. We were fortunate to secure Mrs. Rebecca Makin as the new teacher in the upper grades. Mrs. Makin is an experienced teacher and has taught in other towns in this Supervisory Union. The children appear to be very happy and good progress is being made.

It is difficult for people to understand the shortage of teachers when there is no sharp increase in the number of children in the community. The last three years the national record for the total number of births has been broken, and this year, it is to be broken again with over four million babies born during 1956. This means more class rooms, and more teachers to provide for the increasing number of children pouring into the nation's schools. Increased demand for teachers and short supply can only mean increased salaries for teachers. Beginning teachers are asking and getting salaries that are equal and above what our experienced teachers are getting in the smaller towns. In order to meet this competition, we have to increase salaries.

Due to the efforts of the School Board and the Young Women's Club, new equipment has been added to our playground so that it is now very well equipped. Some work should be done to improve the baseball field. I understand there has been a generous offer by one of our local citizens to make such improvements on the Central School grounds. This is an excellent idea and every effort should be made to carry out this worthwhile program. A small expenditure of money by the District to improve recreation for our children will bring back rich dividends for the money, time, and effort spent in such a project.

I enjoy visiting in the Webster schol and appreciate the cooperation and many courtesies that I have received.
